Dear Brian

Just a brief note to say "Thank You", for the great effort you have made over the past two years, in helping us to finally become operational and begin establishing our brand.

From the original financial feasibilities over several properties and locations, together with operational structures, menu compilation, development and systems, and your ongoing work on our group operations manual, you have always been readily accessible and provided prompt, relevant, and educated counsel.

Your timely responses and informed advice have been invaluable.

The developed menus and associated systems provided have proven to be economical, easily managed by untrained staff and have been enthusiastically received by all. All menus are receiving very positive and encouraging customer comment, and I am confident that we can move this new concept into most of our properties.

It is comforting to know that we can rely on, and make use of your excellent professional services, and extensive industry experience. Please be assured that we look forward to continuing our positive harmonious relationship and utilising your services in the future.

I would have no hesitation in recommending Hospitality Consulting & Services to others in the hospitality industry, seeking similar assistance.

Kind regards,

Grant Clonan

CEO - Station Hotels.
